

SHAPING THE FUTURE OF T LEVELS AND TECHNICAL EDUCATION

Online Live Conference

Wednesday 11th December 2024

Key Speakers

Overview

In September 2020, **T Levels** were introduced as a robust technical alternative to A Levels in England. Four years on, around 16,000 students have now studied all or a part of a T Level since their launch, at over 160 schools and colleges, spanning subjects as diverse as health and science, agriculture, digital technology and legal services.

Whilst progress has been made, significant challenges remain in T Level implementation which cannot be ignored. After four years of roll-out, lessons need to be learned to address worrying student 'drop-out' rates and poor teacher recruitment and retention. Furthermore, questions remain over availability of industry placements, assessment and overall course quality.

After a period of uncertainty in the run up to the general election, the new Labour government has pledged its commitment to bridging the skills gap by investing in technical education including T levels, highlighting their role in equipping young people with essential skills for future success and driving economic growth. In July 2024, a comprehensive review of post-16 qualifications, including T Levels, was initiated to enhance the educational landscape and clarify future funding for applied general qualifications (AGQs) and BTECs.

This must-attend online conference offers a timely opportunity to explore how to improve the delivery of T Levels in the near-term, discuss how to raise awareness of the T Levels offer amongst young people and examine how to bolster collaboration between T Level providers and employers. The conference will also look to the future, providing a valuable insight from the *Department of Education* into the future direction of T Levels, technical education and wider skills policy. The conference will examine what impact the **Curriculum and Assessment Review (CAR)** may have on technical education more broadly and we will also hear about the potential influence of the **Post-16 Qualifications Reform Review** on the future of T Levels and the possible discontinuation of BTECs.

Why Attend?

- Live webinar featuring presentations and panel discussions with a wide range of policymakers and key officials
- Gain insights into the new Government's strategy for T Levels, technical education and skills policy
- Examine the potential impact of the *Post-16 Qualifications Reform Review* and *Curriculum and Assessment Review (CAR)* on the future of T Levels, and funding for applied general qualification (AGQ) courses
- Gather knowledge on successfully designing, developing and delivering T Levels
- Explore how to overcome T Level delivery obstacles, including improving awareness, recruitment and retention of teachers and students, high-quality course content and improving progression routes
- Discuss how to strengthen collaboration & engagement with employers to ensure successful placements for students
- Learn best practice from experts developing and delivering T Levels across the country
- Interactive *Question Time* sessions with opportunities to engage directly with all speakers
- Share ideas with fellow participants from further education, employers, industry, awarding bodies and Government
- *On Demand* – Exclusive access to speaker presentations and post-event resources

Programme

09:30 AM	Delegate Online Login
10:00 AM	Introduction by Webinar Organiser
10:05 AM	<p>Chair's Welcome and Opening Remarks</p> <ul style="list-style-type: none"> • Claire Nicholson-Clinch, <i>Head of Regional Engagement for the South East, East of England, South West and London; Regional Lead, T Level Professional Development Offer, Education and Training Foundation</i>
